Crazy Paving

Crazy paving, also known as flagstone, uses irregularly shaped pavers rather than uniformly cut ones. Originally, people used crazy paving out of necessity rather than stylistic choice. By re-purposing the off cuts of regular pavers, you could save money and avoid waste.

Crazy paving brings interest into a space and is ideal for curved or irregular-shaped areas. Capture the beauty of difference and create your own look - a plethora of options.

Grey Slate Crazy Paving used for entrance way @ our Havelock North Showroom

Cobblestones

Cobblestones are natural stone pavers that are one of the most elegant and durable of all materials.

From ancient roads and sidewalks to modern driveways, cobblestone pavers add character and beauty to any outdoor space with its tumbled and time-worn appearance.
